August 20, 2019,

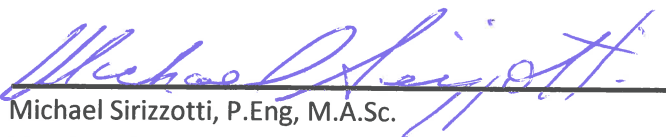

To whom it may concern,

I have had the pleasure of working with Marc Masotti and Masotti Construction Inc. for our recent office renovation project here at Vista Solutions as well as for renovation work at my personal residence. Marc and his company have the ability to perform great work while providing innovative ideas along the way. They provide quality work that looks great and most importantly work that lasts. The corporate pride and workmanship shows without question.

Through the construction process Marc stayed on schedule to meet the deadlines that were promised. Marc kept us informed how we were doing through the whole process including: deadlines, budgets, and any issues that were arising. When issues arose, Marc came with solutions and if there were changes needed, he came with the details of the proposed amount of increase or decrease for the proposed change requested or required.

Once the construction process was completed, Marc followed back with us to make sure we were happy with the final product. When we presented him with a few issues, Marc quickly addressed these issues in a timely manner. We would recommend Marc Masotti and Masotti Construction as a contractor for any of your projects you may have.

Please do not hesitate to contact me if you have any questions regarding this recommendation.

Michael Sirizzotti, P.Eng, M.A.Sc.
